#### THE THIRD DIMENSIONAL VIEW

With so many 3D LCDs getting launched, how could the projector brigade stay away for long? **NEC** India has launched its first 3D enabled, DLP based multifunction projector, the **NP216G**. This portable and lightweight projector allows users to experience high-quality 3D visuals and supports up to a native 1024x 768 XGA resolution. It also

features an impressive 2500 ANSI lumens output for high contrast images (20000:1). With the help of Brilliant Colour technology, the projector produces richly-coloured, bright images for an immersive experience.

**Price: Rs 40,000**

#### Features

- Powerful 7-watt speaker
- ECO Mode technology helps extend lamp life up to 5000 hours
- Remote monitoring and control with Virtual Remote Software
- Wall Color Correction for vivid images even without a screen
