NEC India Pvt. Ltd, a wholly-owned subsidiary of NEC Asia and NEC Corporation has reiterated its plans to increase its focus on the hospitality sector, with the launch of the UNIVERGE SV8500 – a powerful enterprise communications solution that can offer a secure and robust platform for customers who wish to unify their business communications.

As per the company release, the latest UNIVERGE SV8500 is a powerful enterprise communication solution capable of supporting up to 16,000 endpoints in a single system. Reliable, scalable and energy-efficient, it is an advanced application server that supports voice, unified communications and mobility solutions for thousands of users in a networked environment.

Standards and devices supported by the SV8500 include: SIP-enabled devices; LDAP-compliant databases; Java and XML; Managed data network infrastructure; The UNIVERGE OW5000, an integration platform for UC solutions such as Microsoft Office Communications Server and IBM Lotus Sametime.
